

# SOUTHTOWNS CAMERA CLUB VIEWFINDER

VOL 1, ISSUE 2

AUGUST 30, 2020

## MESSAGE FROM THE PRESIDENT

Hello Friends, Just a quick note to say we are ready for another season. It will certainly be different, but I think it is going to be fun. Needless to say, none of this would have been possible without Janet's hard work.

I just want to remind you that to be eligible for monthly club competition, and the McKellar and

the PSA competitions, you must be a paid-up member of our club.

Speaking of that, the following members received Honor Awards for the last McKellar competition held in March: Michael Fairbanks, Janet LoPresto, Carol Pustulka, and Maureen Szuniewicz. For the 2019-2020 McKellar season, we wound up in second place.

We also competed in the PSA competition and wound up in fourth place. We had 186 points and the first place club had 197 points. Some of the clubs that we beat were from Belgium, UK, Ireland and Canada. I don't know about you, but I'm impressed. So I'm looking forward to another year of international competition. Please remember you must be a paid-up member (\$25 dues) to compete in any of the competitions.

Stay safe,  
President, Manny LoPresto

***DUE TO COVID-19 ALL MEETINGS ARE VIRTUAL  
FOR THE 2020-21 SEASON***

## MESSAGE FROM THE EDITOR AND VP...

Greetings!

Hoping you and your families are healthy and doing well. I am looking forward to the upcoming Camera Club season as we have an exciting year planned.

First of all, I would encourage everyone to join the club at the reduced dues of \$25!! Although we need to be careful right now to stay safe, we can still enjoy some virtual camaraderie and per-

haps safely get together in small, masked groups to take photos! The Board is working on ways we can all stay connected, including using our website and Facebook. We will keep you updated as things progress.

Expert speakers are scheduled each month from all around the country. All the programs will be live, not pre-recorded, and we will be able to ask the presenters questions during or after the program.

On September 3rd, at 7:00 pm, we will have our first meeting featuring Lisa Langell from Scottsdale, AZ. Lisa will teach about using contrast to improve our photos. I will be sending all members an email with the link to register for her program. Look on page 6 for info about Lisa and her presentation.

Competitions for digital images are scheduled and a Monochrome category has been added. **An important change is that images must be entered for competition on the FIRST THURSDAY of the month.** This will allow enough time for the images to be judged before the virtual competition meeting on the third Thursday of the month. During this meeting the images, scores and judges comments will be shared.

So, as we navigate these interesting times, I encourage you to let me know what you are thinking and offer suggestions. My email is [jlop206@gmail.com](mailto:jlop206@gmail.com).

Stay-Tuned and Stay Safe!!!

Janet LoPresto, Editor and Vice President

# IMPORTANT CHANGES TO COMPETITION

1. **Digital images must be submitted to competition on the FIRST THURSDAY of the month by midnight**
  
2. **The Monochrome Digital Image Category has been added**
  - There now are three Digital Image Categories: General, Monochrome, Creative/Artistic
  
  - Into each category, you can enter:
    - ⇒ General - Up to 2 images
    - ⇒ Monochrome - 1 image
    - ⇒ Creative/Artistic - 1 image
  
  - **Monochrome Digital Image Rules:**
    - ⇒ A member CAN submit an image in the General Category, then convert that image to monochrome, and submit it into the Monochrome Category
    - ⇒ A member CANNOT submit the same monochrome image into both the General Category and Monochrome Category
  
  - **Definition of Categories:**
    - ⇒ General – Open category. Includes all genres such as nature, pictorial, monochrome, infrared, etc.
    - ⇒ Monochrome – Image must be tints/shades of one color
    - ⇒ Creative/Artistic – Photography producing an image using imaginative skill or originality of thought, including the altering of reality. Includes modifications made on the computer or in the camera

# LISA LANGELL

*Presenting "The Visual Power of Contrast"*

Thursday, September 3, 2020 at 7:00 pm

*"Great photography shouldn't just document what you saw...or even how you experienced it. It should capture how you want your audience to experience that moment!"*

*-- Lisa Langell*

## *The Power of Contrast*

During this presentation, Lisa will explore before-and after examples and teach you how you can use contrast to improve your own images simply and effectively. Get ready for a game changer!

Whether you are controlling for contrast in your exposures themselves, and/or in post-processing, this fun, informative and interactive session will help you learn the tricks and techniques necessary to make your images go from drab to fab!

She will cover WHY contrast is so critically important and explain HOW and WHERE you use it to make all the difference!

You will learn critical components of powerful images that can all be significantly enhanced by the proper use of contrast. There are special techniques that can be accomplished in-the-field as well as during post processing that will amaze you.

Watch for the email with a link to this fun and informative presentation!

# LISA LANGELL

*Presenting "The Visual Power of Contrast"*

Thursday, September 3, 2020 at 7:00 pm

©2020 Lisa Langell

Lisa Langell is a full-time, award-winning photographer whose work has appeared in numerous prestigious publications including Outdoor Photographer Magazine, art galleries and more. She currently sits on the Board of Directors for the North American Nature Photographers Association (NANPA). Lisa is a proud ambassador for Tamron, FotoPro and H&Y filters.

Whether it was working as a master floral designer, a licensed psychologist, university faculty, an international consultant in K-12 education, a writer, or an

artist—she enjoyed meeting each challenge. Still, her strongest calling is photography. In 2015 she transitioned to photography full-time.

The journey with photography has definitely been Lisa's favorite—she loves combining her diverse background and skills into her photographic art and instruction. Bringing joy to others brings joy to her! She thrives on creating innovative learning experiences and pushing photographic boundaries. She equally enjoys enriching, stimulating and expanding fellow photographers' minds emotionally, creatively and intellectually.

You may read more about Lisa or see her work at:

<http://www.langellphotography.com/>

Watch for an email with a link to sign-up for her live, online presentation taking place on Thursday, September 3, 2020 at 7:00 pm

# STCC CORONA COMPETITION 2020 RESULTS

In an effort to have some fun and get motivated to go out and shoot, South Towns Camera Club held the "STCC Corona Competition 2020" in August.

Eight subjects were assigned and the member with the highest cumulative score for all their images was declared the winner. The assigned subjects were:

- Water
- Night Scene
- Reflection
- Place of worship
- Cemetery
- Flower
- Town or City Hall
- "The Virus"

Here are the final standings for the top three competitors:

First Place:	Karl Miller	107 points
Second Place:	Manny LoPresto	106 points
Third Place:	Jan Barton	104 points
Third Place:	Janet LoPresto	104 points

It was a close competition with many interesting and beautiful images. Karl Miller was presented with the prize of a \$25 gift certificate to Ilio Dipaolo's Restaurant. Congrats Karl!!

During a virtual meeting on August 20th, the images, scores and judge's comments were revealed and the winner was announced. Thank you to all the participants—the images were terrific and it was great seeing you all during the meeting.

Thank you also to the following members:

- Billy Callaghan who set up the competition on our website and coordinated the judging & the virtual meeting to view the images.
- Deanne Cunningham for judging and providing helpful comments for each image.
- Gerrie Gilcris for creating a beautiful slide show of the images.

Below is the highest-scoring image from each participant, as well as every image entered into "The Virus" Category.

**Karl Miller "Forever Love"**  
*Entered in the Flower Category*  
Score 15

**Manny LoPresto "City Hall"**  
*Entered in the City or Town Hall Category*  
Score 14

## WILDLIFE PHOTO CONTEST

- ◆ The NYSDEC Bureau of Wildlife is asking for photographs from the public to use on reports, social media, posters, DEC's website, and more.
- ◆ Capture and share moments in the lives of your wild neighbors -- whether feathered, smooth, furry, or scaly. If you sit outside quietly for an hour, you might be surprised at what kinds of critters visit your own backyard!
- ◆ Conditions:
  1. Animals featured in photos must be live, native to New York State, and in their natural habitat.
  2. Photo(s) must have been taken in New York State by the person entering.
  3. A max of 2 photos per submission. You may complete as many submissions as you wish.
  4. Maximum file size is 10 MB per photo. Formats accepted: png, gif, jpg, jpeg, bmp.
  5. The latest you can submit is Saturday, September 12 at 11:59am.

**FOR INFO AND TO SUBMIT PHOTO:**

**<http://www.surveygizmo.com/s3/5618925/wildlife-photo-submission>**

**JANET AND MANNY LOPRESTO**

PERFECTLY ”**

# Before and AFTER

Easy to Use Editing Tools to Make Your Photos Pop

Using some fairly simple software, you can turn a dull image into something really cool and impactful.

Gerrie Gilcrist has been kind enough to share some of her before and after images to illustrate Luminar 4 and Aurora HDR software. Luminar makes it super easy to change the sky (among other things) and Aurora HDR 2019 is an

HDR (high dynamic range) photo editing application. Both are from Skylum software and do not require a subscription. Luminar uses Artificial Intelligence to brilliantly and simply allow you to replace a sky! (Keep in mind for competition at South Towns you have to use a sky you photographed—not one that comes with the software).

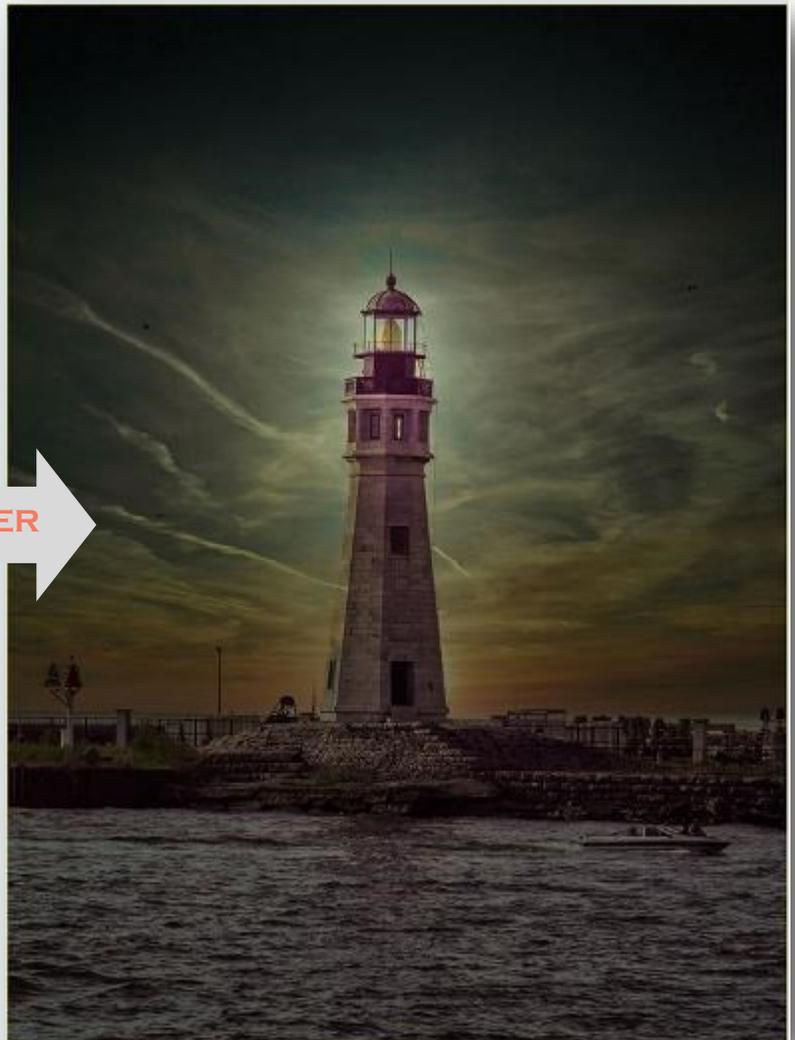

**NOTE: RIGHT NOW SKYLUM IS RUNNING DISCOUNT ON LUMINAR!!!** [Skylum Discount on Luminar](#)

Here are links to a couple of training videos although there are lots more out there:

<https://skylum.com/academy>

[Anthony Morganti Luminar Sky Replace-](#)

## ALL BEFORE AND AFTER IMAGES BY GERRIE GILCRIST

# Before and **AFTER**

Easy to Use Editing Tools to Make Your Photos Pop

**ABOUT LUMINAR 4** Luninar 4 is a superb photo editor developed by [Skylum](#) that allows you to edit your images manually and with clever new AI (Artificial Intelligence) tools, too. You can use it as a standalone program for all your image post-processing needs, or you can run it as a plugin within Photoshop or Lightroom. It's suitable for both Mac and Windows.

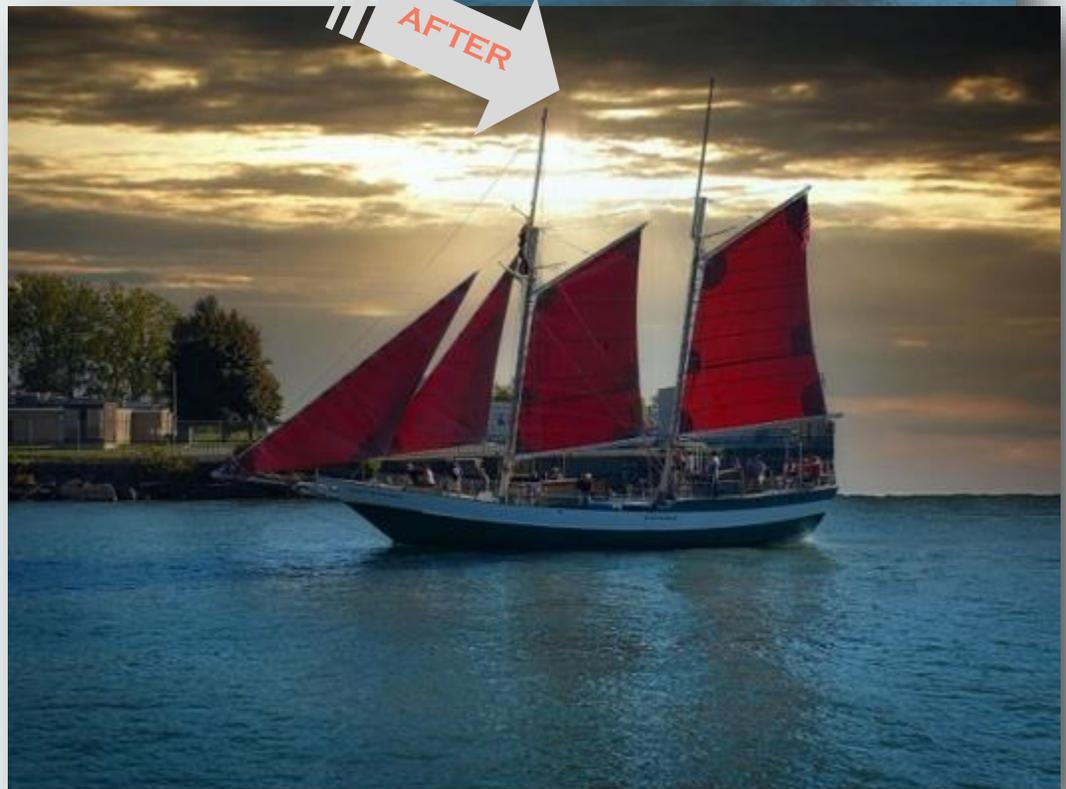

What draws most users to this software are the amazing

Artificial Intelligence tools and features included that make image manipulating quick and easy, with breathtaking results—especially the AI Sky editor. Now, you can harness fantastic tools to create beautiful landscapes, portraits with flawless skin, and even switch out the sky – all with the touch of a button.

Luminar 4, which usually costs \$89, does not require a subscription. It comes with a money back guarantee, so you can try it free for 30 days.

**Luminar 4**  
**Click Here For**  
**Discount Code**

# Before and AFTER

Easy to Use Editing Tools to Make Your Photos Pop

**ABOUT AURORA HDR** The brain is able to see what the camera sensor is not able to capture. The Aurora HDR techniques let you create the image which your mind sees.

Skylum's Aurora HDR has a brand new Quantum HDR engine that uses Artificial Intelligence. This facilitates the process of photo merging to produce natural results that don't look concocted.

A new Smart HDR Structure feature delivers precise details and sharpness without any artifacts, halos or noise. This software runs as a standalone app or as

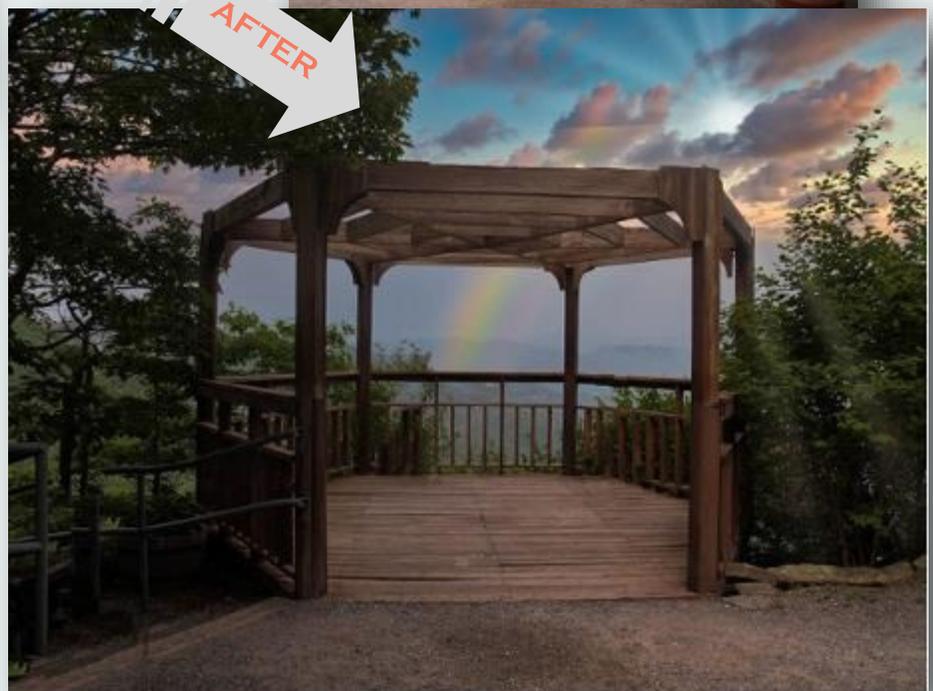

a plug-in to Adobe Photoshop and Lightroom.

Conventional HDR photography merges several images. But, Aurora lets you change a single raw image to HDR using Artificial Intelligence. This rectifies colors, enhances contrast, reduces noise and prevents unnatural ghosting and lighting. It unlocks unprecedented detail and expanded dynamic range from single photos.

[Aurora HDR](#) currently costs \$99.00, or you can buy it in a bundle with Luminar for \$149. It does not require a subscription and comes with a money back guarantee so you can try it free for 30 days.
